

TemplateAFIS_webservice
_lib/firma_digital/md5.cpp

```
graph TD; A["TemplateAFIS_webservice<br/>_lib/firma_digital/md5.cpp"] --> B["md5.h"]; A --> C["cstdio"]; B --> D["cstring"]; B --> E["iostream"];
```

The diagram illustrates the dependencies of the file `md5.cpp` within the `TemplateAFIS_webservice_lib/firma_digital` directory. It is a hierarchical tree structure where the root node is `md5.cpp`. Two arrows point from the root to `md5.h` and `cstdio`. From `md5.h`, two more arrows point to `cstring` and `iostream`. The root node is highlighted with a grey background, while the others are white.
